Profile

Data-driven Product Analyst with 3+ years of experience in product analytics, SQL-based reporting, and machine learning model evaluation. Skilled at translating business needs into actionable insights.

Skills

- Analytics Tools: SQL, Python, R
- Visualization: Tableau, Power BI
- ML Techniques: Regression, Classification, LSTM
- Other: A/B Testing, Statistics, Excel

Education

M.Tech, Structural Engineering
IIT Bhubaneswar (2023–2025)

B.Tech, Civil Engineering
XYZ University (2019–2023)

Experience

Product Analyst – Zomato

Aug 2025 – Present

- Built SQL pipelines for real-time restaurant performance monitoring.
- Conducted A/B tests for feature rollouts, improving CTR by 15%.
- Automated weekly business reports using Python, reducing manual effort by 30%.

Data Analyst Intern – ABC Corp

Jan 2024 – Jul 2024

- Designed Tableau dashboards tracking revenue trends across regions.
- Applied LSTM models to classify structural health (damaged vs. undamaged).
- Supported cross-functional teams with data-driven decision-making.

Projects

- Fire Dynamics Prediction (2025): Built ConvLSTM-based models for future fire frame prediction using PyroSim/FDS simulations.
- 3D-Printable Concrete (2025): Thesis project optimizing mix design with lightweight sintered flyash aggregates.
- HR Agentic AI System (2025): Developed modules for resume parsing, onboarding automation, and company-specific chatbots.
